

1st Belt Road Initiative Summit

13-14 September 2017, University of Oxford

The Silk Road Economic Belt and the 21st Century Maritime Silk Road, also known as the *Belt and Road Initiative* (BRI) or *One Belt One Route* (OBOR) is a development strategy proposed by the Chinese Government. The strategy is based on a high level of coordination and cooperation between East and West and among numerous nations and other organizations.

The aim of OBOR is to encourage and support the flow of economic factors, trade, and finance among its members. In addition to the business and finance aspects, OBOR is concerned with the cultural heritage of nations and its protection.

In order to advance the aims of OBOR, legal and regulatory structures need to be established to enable business and trade to be conducted across borders, across different historical and cultural traditions, while respecting the character of each. The international, cross-border, high technology features make OBOR an ambitious programme, but one posing many risks and challenges. Since its success will bring innumerable benefits to its members, including not only the obvious and immediate economic advances, but also better understanding of different cultures and traditions. Indeed, the theme of this opening summit could well be to identify the risks involved and to consider how they can be overcome.

On 13-14 September 2017, we are going to discuss following issues in Oxford:

1. **Digital Economy:**
 - Sharing Economy
 - Cyber Security
 - Fintech
 - Cross-border Transaction
2. **Legal Infrastructure**
 - OBOR Legal and Regulatory Framework
 - Judicial Cooperation and Practices
 - Dispute Resolution: Forms and Processes
3. **Consumer Protection:**
 - UN Guideline of Consumer Protection and OBOR
 - Consumer beyond Boundaries
 - Consumer in New Economy
 - Best Practice of Consumer redress
4. **Trade, Finance and Investment:** Risks and Opportunity
5. **OBOR Soft Dynamic:** Culture Heritage Protection, and Movement of Art and Media
6. **Science: New Horizon:**
 - Exchanging and Free Movement of Science Technology and Medical Science
 - Empowering OBOR
7. **Sustainability:** Water, Energy, Environment

University of Oxford

Oxford University, an ancient centre of learning, remains at the very top of world universities for its research, its teaching, and its engagement in public policy. It is a collegiate university, with thirty-eight colleges, each an independent institution, which together constitute the university.

The Faculty of Law maintains a position of pre-eminence for its teaching and research, drawing scholars and students from around the world. The Faculty is international in outlook and has a long record of educating students who go on to achieve high office in politics, legal practice, and public and international affairs. Its renowned strength in legal philosophy is matched by equal eminence in a range of other subjects.

Faculty of Law

The Faculty of Law, University of Oxford is the world centre of jurisprudence research. It is renowned for the size, strength, and diversity of its community of legal scholars who are drawn from around the world, including some fellows of the Royal Society. Oxford has unparalleled strength in the philosophy of law. In the past eight hundred years of history, it has produced a significant number of luminaries in law and politics. Amongst those associated with Oxford law include famous judges in European Court of Human Rights, Supreme Court of the United Kingdom, Supreme Court of the United States and others (e.g. Lords Bingham and Denning), head of state and government (e.g. Norway King Olav V and British Prime Minister Tony Blair), the famous jurist H.L.A.Hart, Dworkin and so on.

One Belt One Road Program <https://www.law.ox.ac.uk/one-belt-one-road>

The *One Belt One Road Programme* within the Faculty of Law was recently instituted as a centre for the study of the OBOR as it develops. It includes research, the provision of specialized training, the supervision of students, and the provision of advice. The primary focus of the programme is on the legal, regulatory, and judicial aspects of OBOR, the underlying being that the legal framework is essential to its success. Considering the cross-nation character of OBOR, the need for coordination and cooperation across borders can be achieved only by the development of a suitable legal framework.

In recognition of the importance of economics, political science, and sociology to the development and analysis of OBOR, the approach is multi-disciplinary and inter-disciplinary.

Among the subjects of interest are the following: trade and investment; maritime and logistics; digital economy and financial services; consumer protection; media and intellectual property; Science and Medical Science, and the environment. The better understanding of cultural heritage and its protection for the future constitutes another major theme in the OBOR scheme.

The 1st Belt Road Initiative Summit is the official launch of the programme and an early opportunity for those engaged in the field to come together to discuss common and pressing issues.

For all enquiries related to the 1st BRI Summit, please contact: yeli.guma@linacre.ox.ac.uk

Agenda

The purpose of the BRI Summit is to provide a forum where leading international scholars, practitioners, industry professionals, and policy-makers can come together to present and discuss current developments concerning OBOR, the challenges facing it, and its future directions.

The 1st BRI Summit 2017 will begin at 9am on Wednesday 13th September and end at 5pm on Thursday 14th September.

Day 1 Programme and Sessions:

1. Opening Remarks
2. Case Studies of OBOR Projects
3. The OBOR and the Law
4. The UK's Responses to OBOR

Day 2 Programme and Sessions:

1. Digital Economy
2. Legal Infrastructure
3. Consumer Protection
4. Trade, Finance and Investment
5. OBOR Soft Dynamic
6. Science
7. Sustainability

Further updates will be provided nearer the event; please check back periodically for the latest version.

Speakers (TBC)

The biographies of a provisional list of distinguished speakers invited to attend the event can be found below (subject to change, please check back for updates):

Dr Mukhisa Kituyi, Secretary-General of UNCTAD, has an extensive background as an elected official, an academic, and a holder of high government office. He also has wide-ranging experience in trade negotiations, and in African and broader international economics and diplomacy.

He was elected to the Kenyan Parliament in 1992, and was twice re-elected. He was Kenya's Minister of Trade and Industry from 2002 to 2007. During this period, Dr. Kituyi chaired for two years the Council of Ministers of the Common Market for Eastern and Southern Africa (COMESA) and the African Trade Ministers' Council.

He also served as chairman of the Council of Ministers of the African, Caribbean and Pacific (ACP) Group of States, and was lead negotiator for Eastern and Southern African ministers during the European Union-ACP Economic Partnership Agreement negotiations. He was convenor of the agriculture negotiations carried out at the World Trade Organization's Sixth Ministerial Conference held in Hong Kong, China in 2005. From 2008 to 2012, Dr. Kituyi was a member of a team of experts advising the presidents of the nations of the East African Community on how to establish more effective regional economic links. From 2011 to 2012, he was a consultant for the African Union Commission, where he helped to develop the structure for a pan-African free trade area.

Professor Denis Galligan, Director of the **One Belt One Road (OBOR) Programme** at the University of Oxford, is Statutory Professor of Socio-Legal Studies at Oxford University and a Professorial Fellow of Wolfson College. He is the Co-Founder and Director of the **Foundation for Law Justice and Society**, an independent institution, affiliated with Oxford University, and dedicated to making academic research on law in society more accessible to the professions, business, and government.

Over a career spanning more than forty years, Professor Galligan has published books and articles on law in society, administrative law, and constitutional law. He has been a consultant to the OECD, World Bank, and various other international and national organisations.

Tan Sri Dr. Michael O.K. Yeoh is a public intellectual, social entrepreneur and thought leader. He is Co-Founder and Chief Executive Officer of the **Asian Strategy & Leadership Institute (ASLI)**, recently ranked as one of the world's and region's top think tank. ASLI's Centre for Public Policy Studies (CPPS) was also ranked 7th best in Asia Pacific region. Dr. Yeoh is also Founder Vice-Chairman of CPPS and Chairman of World Chinese Economic Summit. Dr. Yeoh was appointed by the Prime Minister of Malaysia to be a Member of the National Unity Consultative Council, the Advisory Board of the Malaysian Anti-Corruption Commission and a Commissioner in Malaysia's Competition Commission. He was appointed

by the Malaysian Government to be Malaysia's Representative with Ambassador status on the ASEAN High Level Task Force on Connectivity.

Count Francesco da Mosto, Famous architect, author, historian, film maker and television presenter. He has presented several BBC 2 series including Francesco's Venice (2004; BAFTA for Best Photography), Francesco's Italy (2006), Francesco's Mediterranean Voyage (2008; Book by the same title named Sunday Times Best Seller), and Shakespeare in Italy (2012). He has also made guest appearances on such TV shows as What not to Wear, Derren Brown Trick of the Mind, Dr Who Confidential, Blue Peter, Richard & Judy, BBC Breakfast, National Geographic Ancient X Files RADIO documentaries & current affairs for BBC Radio 4 and World Service. Count Francesco is also the recipient of numerous international accolades including the Europa Nostra Heritage Award (2005) and the Premio Bellavista for international journalism (2006), in addition to serving as the Honorary Patron and on the International Committee of the British Red Cross (since 2005).

Countess Jane da Mosto is an environmental scientist (MA, Oxford University, M. Phil., Imperial College London) with international experience as a consultant on sustainable development, climate change and wetland ecology. Since 2012 she has been fully engaged in trying to change the future of Venice and for Venetians as co-founder of We are here Venice, an NGO that specialises in using the best available academic research and methodologies to characterise the challenges for Venice while also drawing upon grassroots networks to source accurate information on the city and lagoon and disseminate distilled findings and results to improve public understanding and international awareness of Venice's fragile but not hopeless condition.

After working in London in management consultancy and venture capital, Jane took up a fellowship at the Fondazione Eni Enrico Mattei in Milan. Since moving to Venice in 1995, she has worked continuously and variously: European Projects for local NGOs; Agenda 21 for Venice Municipality; a review of climate change research in Italy for the International Geosphere-Biosphere Programme/Consiglio Nazionale di Ricerca; the Venice in Peril Fund/Cambridge University five-year study "Flooding and Environmental Challenges for Venice and the Lagoon" and the "Venice Report" on demography, change in use of buildings, public finances and tourism; the OECD Territorial Review of Venice; muf/British Council installation at the Architecture Biennale etc. She gives lectures, frequently appears in the media and is invited to explain Venice at conferences and seminars, worldwide.

Professor Donna Kurtz is the Beazley Archivist, Professor of Classical Art, and Fellow of Wolfson College, Oxford University. She teaches undergraduates and graduate students for the faculty of Literae Humaniores in addition to directing the Beazley Archive. An art historian, she has published books and articles on various aspects of classical Greek archaeology and art, and a number of articles on Information Technology and the visual arts.

Dr Si Xiao, Director of Public Strategy of Tencent group, and Head of Tencent Research Institute. Dr Si Xiao is also a Research Fellow in the National Copyright Administration of China and Visiting Professor at University of Shenzhen. Xiao has extensive industrial experience over many years working in major Chinese Internet companies. He is also very influential in the research of the Internet Law & Policy in China.

Dr Yan Lijin is the Chairman of the Law and Globalization Research, Co-Chairman of the China-Pakistan Economic Corridor Council and Vice President of the Asia-Africa Development and Exchange Society of China. He worked for international corporations for over thirty years, visiting many parts of the world and accumulating rich professional experiences in diplomacy, international cooperation, enterprise management, system integration, and R&D. He also carried out major projects and contributed significantly to the friendship between China and the world. He has won Pakistan's highest civil award for his outstanding contribution towards Pakistan-China relations.

Dr Yu Ying, Deputy Director of **One Belt One Road (OBOR) Programme** at the University of Oxford, is a Research Fellow in Law Justice and Society at Wolfson College and a Member of the Faculty of Law at the University of Oxford. Ying has extensive experience of international trade, maritime law, e-commerce, financial services, dispute resolution, private international law and protection of consumers. Ying combines her academic research and writing with active engagement in policy issues, which has led to her appointment to various committees and organisations. Ying is a Committee Member of the ILA (International Law Association) Consumer Protection Committee, and has been an international expert to UNCTAD, the European Union and other international organisations.

Mr Adrian Hughes QC, Barrister and Arbitrator on the CIETAC arbitration and mediation panel. Adrian has practised commercial and construction law at the Bar since 1984. His practice focuses on complex commercial contract work. His recent cases have included a number of prominent international arbitration and court cases in the UK and Far East including China. He regularly sits as arbitrator, mediator and adjudicator in international and domestic disputes. Adrian is a recent past Chairman of the SCL and chairs the Bar Council's China Committee and is chairman of the newly formed British Azerbaijani Law Association.

Professor Jin Keyu is a tenured Professor of Economics at LSE. Her field of expertise is international macroeconomics and the Chinese economy. Her research has focused on global

imbalances and global asset prices, as well as on China's growth model, the Chinese saving puzzle, and ramifications of the one child policy. She has written for the Financial Times Op-ed, and is a columnist for the Project Syndicate. She sits on the advisory board of Richemont, and has consulted for the World Bank, the IMF, the New York Fed, Bank of England, along with many other financial institutions.

Mr Neil Sampson, Director of the China-Britain Business Council, a co-opted member of the Board of the Great Britain China Centre and a member of the Law Society International Issues Committee. Neil has also been a partner of Rosenblatt since 1994 and his broad portfolio of expertise includes domestic and international dispute resolution, corporate and commercial transactions (both in the UK and internationally), property transactions and a range of private client matters. He has worked on the listing of a number of Chinese companies on the London Stock Exchange, while his dispute resolution experience covers a broad range of domestic and commercial litigation, including international arbitration.

Professor Thierry Bourgoignie, a Professor of Law at UQAM (Université du Québec à Montréal), in Montreal, Quebec, Canada. He obtained a Ph.D. degree from the University of Louvain in Belgium and an LL.M. degree from the Yale Law School in the United States. After 25 years of academic career in Europe as full professor in Louvain and visiting professor in several European institutions, he joined UQAM in June 2003. For six years he acted as the director of a graduate programme in international relations and international law. Between 2009 and 2011, he was appointed Director of the Department of Law within the Faculty of Law and Political Sciences. His publication list comprises more than 20 individual and collective monographs and about 100 published papers. He was elected Chairman of the International Association of Consumer Law from 1998 to 2003. He played a major role in the development of consumer action programmes and the adoption of consumer directives by the European Commission in the 1980s and 1990s. In 2004, he founded at UQAM the research group GREDICC (Groupe de recherche en droit international et comparé de la consommation - www.gredicc.uqam.ca), of which he is the acting director.

Mr Robin Simpson is senior policy adviser for Consumers International, and has been with CI since 2002 having previously worked as head of policy for the UK National Consumer Council and worked on many EU projects in accession countries in Central & Eastern Europe. During that time he has worked on CI's global positions on varied portfolios including financial services, infrastructure services, international trade and competition and most recently digital products. He represents CI in international forums such as the OECD Committee on Consumer Policy, the OECD/G20 Task force on consumer protection in financial services, ISO, and UNCTAD where he was one of CI's negotiating and drafting team for the redraft of the UN Guidelines on Consumer Protection. During 2016 he has been lead consultant, at the invitation of UNCTAD, for the revision of the UN Manual on

Consumer Protection. He is a member of the Technical Advisory Panel of the Public-Private Infrastructure Advisory Facility, a multi-donor trust fund housed in the World Bank.

Professor David Cranston is the clinical director of the High Intensity Focused Ultrasound (HIFU) unit at the Nuffield Department of Surgical Sciences, University of Oxford and has held this position since 2002. He is the author of 18 book chapters and over 100 peer reviewed publications. He was trained in Bristol and had worked in Exeter and Bath before arriving in Oxford in 1983 to do research in renal transplantation under the direction of Professor Sir Peter Morris. He was awarded his DPhil in 1986 and after a clinical lecturer post in urology and transplantation was appointed consultant urological and transplant surgeon in 1991. His special interest is in renal cancer and the urological complications of transplantation with a national referral for some patients needing complex renal cancer surgery. In 1992, he set up a research programme with Professor Adrian Harris, Director of the Cancer Research Unit in Oxford, and has co-supervised many research students who have carried out work in investigating bladder and kidney cancer. Several have won international awards for their work.

Dr Jindong Liu is a research fellow at the Hamlyn Centre for Robotic Surgery. He is interested in fields of biologically inspired robotics and translational research for both clinical and healthcare applications. He mainly focuses on assistive devices and robotics. He translated his research on sound perception to a wearable food-intake monitor device which can help obesity patients to assess their diet. In 2011, he developed a healthcare mobile robot with natural human-robot interaction. From 2013, he invented a catheter robot to automate the catheter insertion and manipulator in order to reduce the radiation dose for surgeon. He also designed and implemented a robotic arm to assist surgeons to position and manipulate instrument easily. His articles have been published in British Journal of Nutrition, Neurocomputing and Journal of Bionic Engineering, etc. He is a committee member of several IEEE conferences and sit on the review board of IEEE/Springer journals such as IEEE Trans. of Neural Network, IROS and ICRA, etc. In 2013, his paper had been evaluated as “Most cited Article in 2012” in J. of Bionic Eng.

Ms Jufang Wang, PhD candidate at Center for Cultural and Media Policy Studies, Warwick University. With more than 16 years’ news media working experience in China, Wang was a senior editor at China Radio International and vice director of News at CRI Online Ltd (one of China’s key news websites). Wang holds two master degrees from Peking University and LSE respectively, and was a visiting scholar at the BBC and Oxford University. Based on her in-depth research on the BBC, she published a book, titled The Way of the BBC (BBC 之道): Core values and Global Strategies, in 2013, which is among the top media research books in China.

Dr Graham Mott, Economic Affairs Officer at United Nations Conference on Trade and Development (UNCTAD). He holds a PhD in Economics from the European University Institute as well as an MSc and BSc in Economics from the University of Warwick. Dr Mott has experience as an officer working in both the Competition and Consumer Policy Branch and the Office of the Director, DITC of UNCTAD.

Dr Tengfei Wang, Economic Affairs Officer at United Nations Economic and Social Commission for Asia and the Pacific (UNESCAP). As an economist and researcher in the fields of trade facilitation, logistics, supply chain management, and transport economics and policy, Dr Wang has been involved in preparing a large number of legislative documents, technical guides and materials. He has authored or co-authored more than 30 peer reviewed research papers published in the journals such as Transportation Research, Journal of Productivity Analysis, Journal of Economics and Business, International Journal of Logistics, Research and Applications. The book titled "Container Port Production and Economic Efficiency" (<http://www.palgrave.com/us/book/9781403947727>) summarizes his main research work before he joined the UNESCAP.

Some of Dr Wang's recent work include leading the development of the UN/CEFACT Recommendation 42 on Trade and Transport Facilitation Monitoring Mechanism (TTFMM) (<https://www.youtube.com/watch?v=tp5eLJGC42o>); assisting a few selected countries in the region to carry out the baseline studies on TTFMM; and leading a global survey on implementation of trade facilitation measures (<https://unnex.unescap.org/content/global-survey-trade-facilitation-and-paperless-trade-implementation-2017>). He obtained his PhD from Hong Kong Polytechnic University and was the winner of the PhD 'Palgrave Macmillan' Prize in Maritime Economics and Logistics, and has previously held the position of Senior Lecturer at the Business School in the University of Plymouth.

Dr Qiong Lu has over six years of working and research experience in water, environment, and climate science sectors. She holds an MSc degree from the University of Bristol in Water and Environmental Management and a PhD degree from University of Oxford in Geography and the Environment. She was also a visiting research scientist at Centre for Ecology and Hydrology (CEH), UK. Her areas of expertise include water resources management, hydrology modelling, climate change adaptation and renewable energy. After her PhD graduation, Qiong joined the World Bank (Headquarter) as a water resources specialist. She is currently providing research and operations support for the South Asian Section at the World Bank.

Mr Biao Ding has formerly held the position of General Manager at CRRC UK Limited, where he currently heads CRRC's Europe infrastructure market strategy and regional policy development. He was the Global EPC Head at CSR Corporation Ltd., managing EPC projects across 35 countries. Mr Ding has 13 years of multinational project management experience,

some of which include the Supervision Astana Light Rail project involving design, delivery, construction etc; Key Project member of CSR HS2 project team, allocating work for technical and commercial engineers on HS2 Rolling Stock Seminar, HS2 supply chain conference, HS2 market sounding questionnaires and face to face technical meetings; Project head of acquisition of E&M GmbH in Germany transaction.

Dr Marie-Helen Maras is an Associate Professor at the Department of Security, Fire, and Emergency Management at John Jay College of Criminal Justice. She is also part of the faculty of the MS program in Digital Forensics and Cybersecurity and PhD program in Criminal Justice at John Jay College of Criminal Justice. Dr Maras has a DPhil in Law and an MPhil in Criminology and Criminal Justice from the University of Oxford. In addition, she holds a graduate degree in Industrial and Organizational Psychology from the University of New Haven and undergraduate degrees in Computer and Information Science and Psychology from UMUC. She is the author of: *Cybercriminology* (Oxford University Press, 2016); *Computer Forensics: Cybercriminals, Laws, and Evidence* (now in its second edition; Jones and Bartlett, 2014); *Counterterrorism* (Jones and Bartlett, 2012); *CRC Press Terrorism Reader* (CRC Press, 2013); and *Transnational Security* (CRC Press, 2014), among other publications. Furthermore, Dr Maras is the creator and co-editor for a monograph and edited volume series titled, “Palgrave Studies in Cybercrime and Cybersecurity” at Palgrave-Macmillan. Prior to her academic post, she served in the US Navy for approximately seven years gaining significant experience in security and law enforcement from her posts as a Navy Law Enforcement Specialist and Command Investigator. During the early stages of her military career, she worked as an Electronics and Calibration Technician.

Dr Alex Chung is a Research Associate working on a cybersecurity project at Cardiff University, and he is the Coordinator for the Oxford One Belt One Road Cyber Security Programme in the Faculty of Law. He has conducted risk assessment and implemented information security policy for the Oxford Law faculty to ensure compliance with the incoming EU General Data Protection Regulation, and he has private sector experience working on outsourced projects related to the Digital Single Market Strategy initiated by the European Commission. He was appointed as an expert member of several international organisations dedicated to the study of organized crime, and he is currently working on publishing a monograph on an ethnic-Chinese drug trafficking network with Palgrave Macmillan. He holds a DPhil in Law, an MPhil in Criminology, and an MSc in Criminology and Criminal Justice from the University of Oxford.

Venue

GULBENKIAN LECTURE THEATRE

Faculty of Law, St Cross Building, University of Oxford

Home to the Faculty of Law, the St Cross Building is a Grade II listed modernist building designed by Sir John Leslie Martin and Colin St John Wilson (known for the Royal Festival Hall and the British Library, respectively) and built between 1960 and 1964.

The Gulbenkian Lecture Theatre is in the St Cross Building on St Cross Road, just to the north-east of the Oxford city centre, on the corner of St Cross Road and Manor Road, opposite Holywell Manor. The postcode is OX1 3UL.

Award

The OBOR Promising Young Scholars Awards recognize and honour three outstanding junior researchers speaking in the Day 2 sessions of the BRI Summit. The selection criteria rests on the exceptional capabilities of the candidate and the promising potential of his or her study within the broad spectrum of OBOR-related research areas, as demonstrated through their presentation. To be eligible for the awards, the candidate must either be enrolled on a post-graduate research course at an internationally accredited higher-education institution, or be within three years of the completion of their doctorate.

Individuals identified as having satisfied the above criteria will be nominated on the day by the Director of OBOR Programme, Professor Denis Galligan. The candidate will be notified of his or her nomination status by Deputy Director Dr Ying Yu shortly after the talk. The awards will be presented to the nominees during the closing session of the summit.

The OBOR Promising Young Scholars are a prestigious community of junior researchers dedicated to utilizing and promoting multi-disciplinary and cross-disciplinary approaches to the study of OBOR issues. In addition to immediate global recognition arising from the awards, which will be covered by our international media partners, the winners of the awards will also enjoy the following unique benefits:

- An invitation to join one of our nine established research programmes as an affiliated researcher;
- The opportunity to collaborate with a selected number of our experts in a chosen research area;
- A complementary delegate pass to our annual BRI Summit in the subsequent year.

Registration

There are three types of delegate rates, all of which include the following for both days of the BRI Summit: admission to the event, refreshments during tea breaks, a sandwich lunch buffet, and a post-event drinks reception. The fees for the three delegate categories are listed below (documentation of full-time course enrollment required for the student categories):

Regular Delegate	£308
------------------	------

Non-Oxford Students	£158
---------------------	------

Oxford Students	£108
-----------------	------

To attend the event, you will need to **BOTH** register and make payment.

1. Registration: please download the [Registration Form](#), complete it, and return it to obor@law.ox.ac.uk

2. Payment: please make bank transfer payment to Wolfson College using the information below - you **MUST** include the payment reference "DGOBOR" before your full name (for example, "DGOBOR, Dr Ying Yu"), otherwise your payment will not be accepted:

UK Payments

Name of account: Wolfson College Receipts Account

Bank name: Barclays Bank PLC

Sort code: 20 65 18

Bank account number: 40978965

International Payments

Name of account: Wolfson College Receipts Account

Bank name: Barclays Bank PLC

IBAN: GB18BARC20651840978965

SWIFTBIC: BARCGB22

Alternatively, we are working to provide a credit card or debit card payment method through the Oxford University Online Shop by the end of July. Should you prefer to pay by card, please check back at that time and we will hopefully have our Online Shop payment link activated and ready to accept payment.

Terms & Conditions

- If you wish to cancel this booking before 13th August 2017, you will incur 50% of the delegate fee. After this date, you will incur 100% of the cost.
- Substitutes are welcome. No-shows will be charged the full rate.
- Oxford University OBOR Programme reserves the right to make final changes to the content and timing of the events, the dates and the venue without prior notice and without liability.
- Oxford University OBOR Programme shall be under no liability if it shall be unable to carry out any provision of the booking for any reason beyond their control.

Please be aware that the registration fee applies to all participants, including speakers.

The registration fee is necessary to cover the cost of mounting the international summit. Oxford University, being a charitable foundation, does not seek to make a profit from such events.

Sponsorship

There are **three** levels of sponsors.

Sponsor Opportunities:

1. Silver sponsor with networking packages

- Acknowledgement from the meeting chair during their welcome
- One free conference registration
- Appear as sponsor with logo and advertisement in the programme book
- Logo and link to your company on the conference website
- Company logo displayed on signage/roller banner at meeting

2. Gold sponsor with promotional materials

- All above benefits with two free conference registrations
- Speaking opportunity – have an opportunity to address delegates by saying a few words at the refreshment break or lunch

Display table literature

Company flyers can be displayed on the registration desk at the meeting, where all delegates will pass by to collect their name badge and programme book.

Promotional items

The opportunity to provide branded materials to all delegates, such as lanyards / name badges / pens / delegate bags / branded USBs.

Advertising in the programme book

The sponsor can be advertised across a full page in the printed programme book, which will be taken away by all delegates.

3. Platinum sponsor with tailored packages

The sponsor has all the above benefits and can have three or more free conference registrations.

It is potentially the sole leading sponsor for the conference and its name would be mentioned together with the conference wherever possible and it has an opportunity to address the full conference for up to five minutes during the conference. The package can

be tailored to meet other needs of this sponsor.

We are happy to tailor the above packages to meet your needs. There are also options to run sponsored workshops as part of the meeting, sponsor prizes and awards and contribute to other aspects of the meeting.
